PROVIDER ELECTRONIC SOLUTIONS

2.10 FULL INSTALL - CD

Enclosed is version 2.10 of the EDS Provider Electronic Solutions software install that you requested.

BEFORE APPLYING THE INSTALLATION, CLOSE ALL APPLICATIONS ON YOUR PC.

TO APPLY THE INSTALLATION:

1. Insert the CD in your CD-ROM drive.
2. Click on Start and select run.
3. Type in D:\PES\PES_setup.exe
   (The D: represents a computer's CD-ROM drive, make sure that the appropriate letter for your computer's CD-ROM drive is placed at the beginning.)
4. The Welcome Screen should appear, click NEXT.
5. Chose TYPICAL for your initial installation, click NEXT.
   (For all workstation installations, choose the workstation option to link other Provider Electronic Solutions users to the same database.)
6. The Application Destination screen will appear, click NEXT.
7. The Database Destination screen will appear, click NEXT. *To network the Provider Electronic Solutions software, click the Browse button to identify your share/network drive.
8. Once the installation has been successfully applied, click FINISH.
9. The Provider Electronic Solutions shortcut folder should appear on your desktop. If it does not appear, right-click on an open area on your desktop and left-click on 'Refresh'. The folder should now appear.

For setting up your personal options refer to Chapter 2, Section 2.4, Installing Provider Electronic Solutions, in the Provider Electronic Solutions User Manual. To access the Provider Electronic Solutions User Manual, double-click on the User Manual shortcut.
