(2) The Medicaid Agency may, in its sole discretion, add to, reduce, or otherwise alter, amend, adjust, or modify the minimum ~~financial reserves and~~ capital or surplus described in section (1) of this rule to account for the level of financial and/or other risk the ICN bears with regard to the populations to be served or the services to be provided by the ICN, or any other factor the Agency considers relevant to the financial solvency of the ICN.

~~(3) Instead of maintaining the restricted reserves required by subsection 1(a) of this rule, an ICN may submit to the Medicaid Agency an irrevocable letter of credit in an amount equal to the aggregate restricted reserves that would otherwise be required of the ICN under subsection 1(a), to guarantee the performance of the provisions of the risk contract, satisfying the following requirements:~~

~~(4) Each ICN other than ICNs satisfying their restricted reserve requirements with an irrevocable letter of credit shall, using a model depository agreement provided by the Medicaid Agency, establish a restricted reserve account with a third party financial institution that is authorized to do business in the State of Alabama and is satisfactory to the Medicaid Agency for the purpose of holding the ICN's restricted reserve funds required pursuant to subsection 1(a) of this rule.~~

~~(a) Restricted reserves shall be held for the exclusive purpose of making payments to providers in the event of a determination by the Medicaid Agency pursuant to Rule No. 560-X-64 .08 that the ICN is insolvent, is in a hazardous financial condition, or is otherwise in breach or default under the risk contract.~~

Within 30 calendar days after the end of each calendar quarter, each ICN's required restricted reserves shall be adjusted based on the average monthly total capitation payment for such preceding quarter. Until an ICN has completed a full calendar quarter of its risk contract, the ICN's projected average monthly total capitation payment shall be determined by the Medicaid Agency, based on a projection of the capitation payment to be paid to the ICN if the Medicaid Agency enters into a risk contract with the ICN. Such projected average monthly expenditures may be adjusted by the Medicaid Agency from time to time through the completion of the first full calendar quarter of the ICN's risk contract, based upon changes in the projected or the actual capitation payment under the risk contract.~~
