

Answers to Frequently Asked Questions

- You must sign up for Plan First every year on a form that will be mailed to you. You must fill it out and return it to the address on the form by the deadline so you can continue to get family planning services.
- All county health departments have Plan First Care Coordinators for women. They will be happy to help with the birth control method you choose, such as providing reminders when you need to come for your next visit.
- The Plan First Program pays for family planning services only. For treatment of high blood pressure and other medical conditions, you can go to a Community Health Center that provides primary care based on your income.
- For information on services offered under the Plan First Program or by Community Health Centers, call the Plan First Program hotline toll free at 1-888-737-2083.
- The Plan First Program does not pay for pain medication after a tubal ligation or a vasectomy. You will need to talk to your doctor about any medication that may be needed.
- The Plan First Program provides birth control for women between the ages of 19-55 and vasectomies for men age 21 or older. Ask your county health department's Family Planning Program about other services for men of all ages and teenagers under age 19.

What's Not Covered

Primary Care/Medical Services

Plan First covers family planning services only. You can receive primary care/medical services at any community health center. For more information about Alabama's community health centers, call the Plan First Hotline toll-free at 1-888-737-2083.

Family planning can help you and your family have a better life.

- Mothers and babies have a better chance of being healthy.
- Parents can better provide for their family, both financially and emotionally.
- Children get more time and attention.
